

# Executive Summary

## Wasel-2U – 3-Month Growth Strategy

### Objective

Drive app growth and increase the number of active customers by focusing on converting new users into repeat customers, ensuring sustainable revenue growth.

### Key Insights

- 1 The app has strong potential to acquire new users and convert them into first-time customers, with an estimated **25% conversion rate** from downloads to first orders.
- 2 The main challenge is **improving the repeat purchase rate**, which is the primary driver of long-term profitability.
- 3 The strategy is built on three core pillars:
  - **Acquisition:** Attract new users
  - **Conversion:** Turn users into first-time customers
  - **Push Notifications**
  - **Loyalty Programs**

### Budget Allocation

The allocated budget for the next three months is **\$5,000**, distributed strategically across:

- **Paid Advertising**
- **Influencer Marketing**
- **Push Notifications**
- **Loyalty Programs**

### Key Insights

**Acquis:** Attract new users

**Conversion:** Turn users into first-time customers

**Retention:** Increase repeat orders and build customer loyalty

4

8% repeat  
purchase rate

## KEY INSIGHTS

### STRONG TOP-OF-FUNNEL PERFORMANCE

The conversion rate from downloads to sign-ups (73%) indicates strong user interest in the app and its value proposition.

### HEALTHY FIRST-ORDER CONVERSION

Approximately one-third of registered users placed their first order, reflecting an effective initial user experience.

### LOW RETENTION RATE

Only 8% of customers placed repeat orders, highlighting a key challenge that should be addressed in the upcoming strategy.

## CONCLUSION

The app is performing well in **user acquisition** and **initial conversion**.

However, the real growth opportunity lies in improving **repeat orders** and **strengthening customer retention** to build **long-term loyalty**.

### Primary Strategic Challenge

Although the app is performing well in acquiring new users and converting them into **first-time customers**, the repeat order rate remains very low.

- Currently, **only 8% of customers place repeat orders**, which indicates weak customer retention and limited habit formation among users.
- This represents the **main barrier to sustainable growth**, since most long-term revenue typically comes from **repeat customers** rather than first-time orders.

### Possible Root Causes

-  **Lack of strong retention programs** to encourage repeat purchases (such as loyalty points and personalized offers)
-  **Limited post-purchase engagement** with users (e.g., retargeting campaigns and push notifications)
-  **Need for a smoother and more rewarding** customer experience that encourages monthly usage habits

### Strategic Direction (Next 3 Months)

Improving Repeat Orders and Customer Retention, while continuing to support **new user acquisition** and first-order conversion.

Wasel-2U

# 3-Month Growth Objectives

Strategic goals for the Wasel-2U app over the **next three months**:

## 1 Acquisition – Attract New Users

- Increase app downloads and user registrations significantly.
- **Target audience:** individuals aged 22-35 in Tartous, Latakia, and Homs.

## 2 Conversion – Turn Users into First-Time Customers

- Improve conversion rate from registration to first order from **34%** to **40-45%**
- Encourage first orders through promotional offers such as:

- **4 free deliveries** from any restaurant
- **Referral program:**
- **15% discount** for the new user

## 2 Conversion – Turn Users into First-Time Customers

### Customers

- Improve conversion rate from registration to first order from **34%** to **40-45%**
- Encourage first orders through promotional offers such as:

**4 free deliveries** from any restaurant

**Referral program:**

**150 SYP credit** for the referrer

**15% discount** for the new user

## 3 Key Performance Indicators (KPIs)

- App Installs
- Registration Rate
- First Order Rate
- Repeat Order Rate

## 3-Month Budget Allocation

Total Budget for the Next 3 Months: **\$5,000**

### Month 1 – Budget: \$2,000

#### Meta Ads – \$850

Acquire new users and drive first orders

#### Influencers – \$600

Build local trust and accelerate app downloads

#### Retargeting – \$200

Re-engage hesitant users

#### Push / CRM Retention – \$150

Encourage second orders

#### Referral / Loyalty – \$100

Boost referrals and repeat usage

#### Creative / Testing – \$100

Optimize messaging and content

Month 1 – \$2,000

### Month 2 – Budget: \$1,500

#### Meta Ads – \$650

Sustain new user acquisition

#### Influencers – \$350

Support expansion and credibility

#### Retargeting – \$200

Convert non-purchasing users

#### Push / Repeat Orders – \$150

Encourage repeat purchases

#### Referral / Loyalty – \$100

Strengthen customer loyalty

#### Creative Support – \$50

Improve campaign creatives

Month 2 – \$1,500

### Month 3 – Budget: \$1,500

#### Meta Ads – \$550

Sustain user acquisition

#### Influencers – \$250

Support brand growth and trust

#### Retargeting – \$200

Recover inactive users

#### Push / Retention – \$250

Reactivate and retain users

#### Referral / Loyalty – \$250

Maximize repeat orders and

#### Creative Support – \$50

Improve campaign creatives

Month 3 – \$1,500

# Forecast & Expected Outcomes

## Wasel-2U App – Growth Projection (Next 3 Months)

We project the app's growth over the next three months under three realistic scenarios:

### 1. Conservative Scenario

Assumes modest growth driven by initial marketing campaign and content rollout.

Estimated Downloads ~300

Estimates (Sign-ups (Leads)) ~250

First-Time Customers ~110

Repeat Customers ~58

### 2. Moderate / Likely Scenario

Assumes successful campaign performance on Meta platforms and via influencers, with improved conversion across the funnel (Download → Sign-up → First Order)

Estimated Downloads ~370

Sign-ups (Leads) ~320

First-Time Customers ~150

Repeat Customers ~75

### 3. Optimistic / Ambitious Scenario

Assumes strong performance across all channels, including Meta Ads, influencer marketing, push notifications, Loyalty programs, and re-engagement exiting users.

Estimated Downloads ~500

Sign-ups (Leads) ~370

First-Time Customers ~200

Repeat Customers ~100

#### Conversion Funnel

#### Key Growth Drivers

- ✓ Meta Ads Performance
- ✓ Push Notifications
- ✓ User Retention & Re-engagement
- ✓ Influencer Marketing
- ✓ Loyalty Programs

## Key Performance Indicators (KPIs) & Success Metrics

### Objective of KPIs

Measure the success of **the** Wasel-2U strategy over the next **three months** and ensure that every activity has a clear impact on app growth and profitability.

### Key Metrics

#### App Installs

Measure the effectiveness of **acquisition** campaigns to drive new downloads on Meta and other marketing channels.

#### Registration Rate (Leads)

Evaluate the app's **ability** to attract new users and convert them into registered users.

#### Repeat Order Rate

Measure how many customers make a repeat order.  
Key indicator of profitability and customer retention.

#### First Order Rate

Track the number of users who place their first order. Reflects how effectively the app turns users into customers.

#### Customer Acquisition Cost (CAC)

Calculate the cost of acquiring a new customer relative to the total marketing spend.

#### Customer Lifetime Value (CLV)

Estimate the total value each customer generates over their lifetime based on repeat purchase behavior.

# Strategic Recommendations & Next Steps

Key priorities for the next three months:

## 1. Acquisition (User Growth)

- Leverage **Meta Ads** to target youth (**22-35**) in Tripoli, Latakia, and Homs
- Partner with **local influencers** to accelerate app downloads
- Improve ad creatives and visuals aligned with **app offers**

## 2. Conversion (First Order Optimization)

- Maximize **4 free deliveries** and **referral codes**
- Use personalized **push notifications** to prompt first orders
- Analyze drop-offs and refine the **user onboarding experience**

## 3. Retention (Customer Loyalty)

- Boost repeat orders with **loyalty program rewards**
- Send **smart notifications** for offers and **wallet reminders**
- Convert **one-time users** into **loyal, repeat customers**

## 4. Monitoring & Continuous Improvement

- Monitor **weekly and monthly KPIs**
- Continuously **optimize** campaigns based on **performance data**

☑ **Wasel-2U** is well-positioned for sustainable growth by focusing on:

- 

- ✓ Approve the **3-month** marketing budget plan
- ✓ Authorize immediate execution of **Meta Ads** campaigns and influencer-driven content
- ✓ Approve implementation of **Loyalty & Retention** programs
- ✓ Conduct **monthly performance** reviews to adjust strategy based on KPI results

We're ready to move forward  
and make an **impact together.**

 Feel free to ask any final questions.

- Let's move forward and achieve **sustainable growth together.**
