

Strategic Clarity & Market Positioning

From Vision → To Clear Market Execution

THE PROBLEM

Strong product...
but **unclear message**

Too many services ✓

Multiple messages ✓

No clear offer ✓

Result: Users don't understand → No action 🔴

Where's the mistake?

We're trying to present everything... **all at once**

Without a **clear entry point**

- ✓ Lower conversion
- ✓ Slower growth
- ✓ Weak differentiation despite strong content

› **Strong product + weak message = weak results.**

SOLUTION

Simplify Aravira into one clear **initial offer**

THE OFFER:

Learn AI practically
and **build your own project**
with a **job-ready portfolio**

STRATEGIC SOLUTION

Simplify the offer into
single entry point.

- ✓ **Learn AI practically**
- ✓ **Build a project**
- ✓ **Job-ready portfolio**

THE NEW ECOSYSTEM STRUCTURE

How is the ecosystem structured?

1. ENTRY POINT

**Practical AI
AI Path**

2. SUPPORT

AI Coach

3. DIFFERENTIATION

Robotics

4. EXPANSION

AI Agents (B2B)

Ecosystem Structure

Entry Point:  + **Project**  **Portfolio**

Then expand into:

✓ **AI Coach** → Support

✓ **Robotics**

✓ **Differmunity** - Loyalty

✓ **AI Agents** - For Businesses

AUDIENCE SEGMENTATION

Market Clarity

B2C Students

- ✓ Learn +
- ✓ Build a project
- ✓ Get a job

B2B Companies

- ✓ Custom AI
- ✓ Tailored solutions

Keep the messaging **separate**

THE FINAL MESSAGE

We don't just teach AI...
We transform you into someone
who builds real-world projects

THE OUTCOME

What will change?

✓ **Greater clarity**

✓ **Increased conversion**

✓ **Faster growth**

✓ **Stronger market positioning**

Expected outcome

@ Reality Check

Are the current targets realistic?

A strong brand from day one

High market trust

A ready and tested funnel

High operational capacity
from the start

The issue:

These assumptions are
not fully present at
the launch stage

Result:

The current targets reflect
ambition more than
operational reality

Paid Students

Current Target

> **1,000 – 1,500**
students

Adjusted Target

> **600 – 900**
students

Why the adjustment?

- Conversion rates in education are typically: **1% ~ 3%**
- Reaching **1,000+** students requires:

Massive reach

High trust

More time

Conclusion — The new target is:

- ✓ Achievable
- ✓ Still ambitious

- ✓ Sustainable without overloading the system

Scholarship Students

Current Target

> **2,000 – 3,600**
students

Adjusted Target

> **1,500 – 2,000**
students

Why the adjustment?

- Strategic alignment
-  Strong management
-  Dedicated follow-up
-  A clear funnel
- User feedback
-  Scalable approach

Conclusion

- ✓ Higher quality
- ✓ Better experience
- ✓ Easier future scaling

Current Target

> **50,000**
followers

Adjusted Target

> **25,000 – 30,000**
followers

Why the adjustment?

- A strong content engine
- Strong experimentation
- Consistent Viral performance
- Time + experimentation

At the early stage: • Content is still being tested and optimized

Conclusion — Management points:

- ✓ Strong growth
- ✓ Indefinite scaling
- ✓ Realistic expectations from viral scaling

LinkedIn

Current Target

> **10,000**
followers

Evaluation:

Achievable, but requires
intensive effort

Clarification:

-  Slower in growth
 -  Driven by deep, valuable content
 -  Depend on personal branding 
- Reaching 10K is possible, but: •  Requires consistent a B2B strategy

Conclusion No adjustment needed, but requires:

Dedicated
B2B content

Consistent
professional presence

Platform Activity

Current Target

> **500,000**
activities

Adjusted Target

> **250,000**
activities

Why the adjustment?

• Number of users

• Engagement level

• Product maturity

In year one: 🐢 The product is still evolving and improving.

Conclusion

No adjustment product pressures:

Realistic expectations

Measurable performance

Alignment with growth stage

Strategic Insight

What do these adjustments mean?

These changes do not reduce ambition
They transform the plan into:

**A system that can
actually be executed**

**Big numbers
without a system**

**Realistic targets
with strong execution**

SUMMARY

Problem: Complexity

Solution: Simplification

Execution: One clear offer

Clarity = Growth

Final Position

Final Outcome

- ✓ **Executable**
- ✓ **Market-driven**
- ✓ **Aligned with the company's stage**

 **Clarity in numbers =** 
 **Better decisions = Real growth**
